

## FLASHSHIELD™ CSST FLEXIBLE GAS TUBING

### The proof is in the performance.

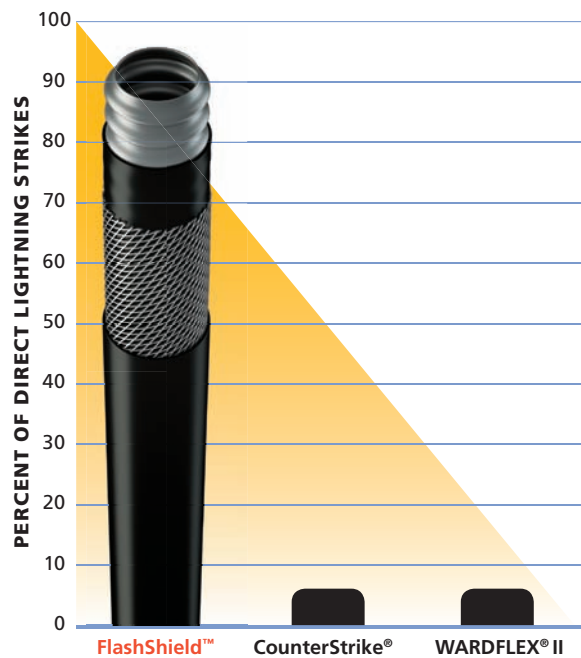

When it comes to choosing the best conductive CSST for your customers and your business, you want the one that outperforms the rest, and can prove it, too. That's where FlashShield CSST comes in. It's the only metallically shielded CSST, and the only conductive flexible gas delivery system tested and proven\* to:

- Withstand nearly **95% OF SIMULATED DIRECT LIGHTNING STRIKES** (while WARDFLEX® II and CounterStrike®\*\* withstand only around 5%)
- Utilize advanced **AEROSPACE SHIELD TECHNOLOGY**
- Meet strict **ICC-ES PMG LC1024 AND LC1027** performance criteria
- Provide **MORE THAN 10 TIMES** the lightning resistance of the competition for just a few dollars more per install

\*Based on independent third-party testing.

\*\*WARDFLEX II is a registered trademark of WARD Manufacturing Inc.  
CounterStrike is a registered trademark of OmegaFlex, Inc.

**FLASHSHIELD™**  
**CSST WITHSTANDS**  
**NEARLY 95%**  
**OF SIMULATED**  
**DIRECT LIGHTNING**  
**STRIKES,** while  
the competition  
can withstand  
only around 5%.

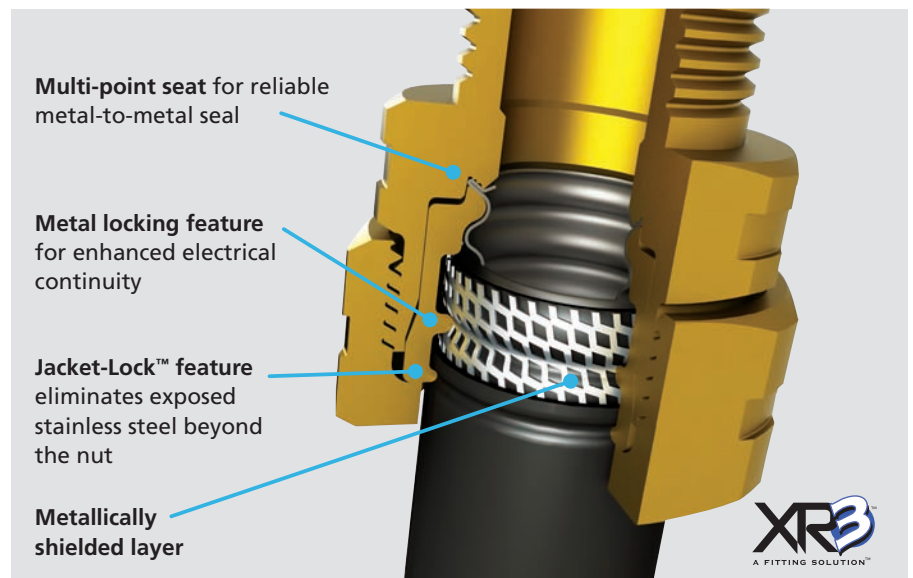

**MAKE EVERY INSTALLATION**  
**SAFER, SPEEDIER.**

Reduce installation time and user error with our new Striper Tool. Be sure to request your tool with your next order.

## A fitting evolution in CSST safety.

### INTRODUCING THE XR3 FITTING.

Gastite has always led the way in offering the best installation choices for residential gas delivery systems. And now, thanks to our new patent-pending **XR3** fitting, the FlashShield product is truly the undisputed champion of CSST.
